Chariot Oil & Gas Limited

("Chariot", the "Company" or the "Group")

3D Seismic Programme Completed, Namibia

Chariot Oil & Gas Limited (AIM: CHAR), the Atlantic margins focused oil and gas exploration company, today announces that it has completed its 3D seismic survey in Blocks 2312 & 2412A (the "Central Blocks") offshore Namibia in conjunction with its partners AziNam (20%), NAMCOR (10%) and Ignitus (5%).

The survey comprised approximately 2,600km² of data and was conducted by PGS Exploration (UK) Limited. This survey targeted several significant leads within the Upper Cretaceous deep water clastic turbidite system and the data will now be processed and then interpreted in-house.
